**Summary:** The current Mar. Cir. provides the requirements and procedures for approving and monitoring maritime mobile and maritime mobile-satellite radio services Accounting Authorities and lists the Accounting Authorities approved by the G-B I.S.R., as per the current point of time.

### **Applicability**

1. This Mar. Cir. applies to all G-B I.S.R. flagged vessels equipped with ship radio stations and to all entities requesting approval or approved as a Radio Accounting Authority by the G-B I.S.R.

### **Background**

4. It is mandatory that all international maritime radio traffic charges for radiocommunications from ship to shore, both terrestrial and satellite, shall be settled by the approved Accounting Authority under the contract with the owner of the vessel. The Accounting Authority shall notify the Administrator of the vessels for which it has assumed full responsibility for the payment of the radiocommunication incurred through its maritime mobile station, ensuring, as required by the ITU Convention, that these payments are made in accordance with the applicable ITU Regulations and Recommendation D.90 and international practice within the maritime domain.

### **Procedural Requirements of the G-B I.S.R.**

5. The approved Accounting Authority service provider for the vessel shall be fully responsible for the payment of the radio and satellite communication charges including all activation and deactivation fees.
